10. Each person is responsible for his/her own actions.
11. Innovation involves taking risks.
12. Schools are responsible for creating the conditions that promote success.
13. Each person is entitled to retain his/her dignity.
14. All people have the right to be treated with respect and the responsibility to treat others respectfully.

5.2—PLANNING FOR EDUCATIONAL IMPROVEMENT

Each school in the district shall develop a comprehensive school improvement plan to address deficiencies in student performance based on analysis of students' grade-level benchmark assessments and other relevant data. The purpose of each plan shall be to ensure that all students meet the state assessment standards established by the State Board of Education, as well as student achievement goals established by the District. A cumulative review of all academic improvement plans shall also be part of the data used to develop the comprehensive school improvement plan. Each plan shall be developed with administrator, teacher, other school staff, parent, community, and student (when appropriate) input and shall have as one of its components a plan for a parental involvement program. Professional development activities are to be designed to meet the needs identified in each school's plan. Each plan is to be reviewed annually and revised to meet the changing needs reflected in student data.

Any school in the district identified by the Arkansas Department of Education as failing to meet the established levels of academic achievement on the state's assessments shall revise its school improvement plan.

The district shall develop, with appropriate staff and community input, a comprehensive district improvement plan. The plan shall coordinate the actions of the various comprehensive school improvement plans within the district. The district plan shall align district resources to help ensure all of its students attain proficiency on the State assessments.⁴

5.3 CURRICULUM DEVELOPMENT

Sequential curricula should be developed for each subject area. Curricula are to be aligned with the curriculum frameworks and used to plan instruction leading to student proficiency on Arkansas' content standards. Curricula should be in alignment with the District's vision, mission, goals, and educational philosophy. Student achievement is increased through an integrated curriculum that promotes continuity and a growth in skills and knowledge from grade to grade and from school to school. Therefore, the Board desires that unnecessary duplication of work among the various grades and schools be eliminated and those courses of study and their corresponding content guides are coordinated effectively.

The Board of Education is responsible for reviewing and approving all instructional programs offered by the District as well as approving significant changes to courses or course materials before they are implemented. The Superintendent is responsible for making curriculum recommendations.

Each school shall review each curriculum area annually to address the continued relevancy, adequacy, and cost effectiveness of individual courses and instructional programs and to ensure each area is aligned with the current curriculum frameworks and course content standards approved by the State Board of Education. Each school's administration shall implement a monitoring process to ensure that the instructional content of each course offered is consistent with the content standards and curriculum frameworks approved by the State Board of Education.

In addition to the requirements listed above, the district's administration shall work with staff as may be appropriate to ensure a successful transition to the implementation of the Common Core State Standards.

5.5—SELECTION/INSPECTION OF INSTRUCTIONAL MATERIALS

The use of instructional materials beyond those approved as part of the curriculum/textbook program must be compatible with school and district policies. If there is uncertainty concerning the appropriateness of supplemental materials, the personnel desiring to use the materials shall get approval from the schools principal prior to putting the materials into use.

All instructional materials used as part of the educational curriculum of a student shall be available for inspection by the parents or guardians of the student. For the purposes of this policy, instructional materials is defined as instructional content provided to the student regardless of its format, including printed or representational materials, audio-visual materials, and materials in electronic or digital formats. The term does not include academic tests or academic assessments.

Parents or guardians wishing to inspect instructional materials used as part of the educational curriculum for their child may schedule an appointment with the student’s teacher at a mutually agreeable time. Parents/guardians wishing to challenge the appropriateness of any instructional materials shall follow the procedures outlined in Policy 5.6—CHALLENGE OF INSTRUCTIONAL/SUPPLEMENTAL MATERIALS.

The rights provided to parents under this policy transfer to the student when he/she turns 18 years old.

5.6—CHALLENGE OF INSTRUCTIONAL/SUPPLEMENTAL MATERIALS

5.7—SELECTION OF LIBRARY/MEDIA CENTER MATERIALS

The ultimate authority for the selection and retention of materials for the schools' media centers rests with the Board of Education which shall serve as a final arbiter in resolving a challenge to any media center materials. Licensed media center personnel shall make the initial selections in consultation with school and district licensed staff. Materials selected shall be in accordance with the guidelines of this policy.

The purpose of the schools' libraries/media centers is to supplement and enrich the curriculum and instruction offered by the District. Promoting the dialogue characteristic of a healthy democracy necessitates the maintenance of a broad range of materials and information representing varied points of view on current and historical issues. In the selection of the materials and resources to be available in each library/media center consideration will be given to their age appropriateness. Materials should be available to challenge the different interests, learning styles, and reading levels of the school's students and that will help them attain the District's educational goals.

Selection Criteria

The criteria used in the selection of media center materials shall be that the materials:

1. Support and enhance the curricular and educational goals of the district;
2. Are appropriate for the ages, learning styles, interests, and maturity of the schools' students, or parents in the case of parenting literature;
3. Contribute to the examination of issues from varying points of view and help to broaden students understanding of their rights and responsibilities in our society;
4. Help develop critical thinking skills;
5. Are factually and/or historically accurate, in the case of non-fiction works and/or serve a pedagogical purpose;
6. Have literary merit as perceived by the educational community; and
7. Are technically well produced, physically sound (to the extent appropriate), and represent a reasonably sound economic value.

Retention and Continuous Evaluation

Media center materials shall be reviewed regularly to ensure the continued appropriateness of the center's collection to the school's curriculum and to maintain the collection in good repair. Those materials no longer meeting the selection criteria, have not been used for a long period of time, or are too worn to be economically repaired shall be withdrawn from the collection and disposed of. A record of withdrawn media materials including the manner of their disposal shall be maintained for a period of three years.

Gifts

Gifts to the media centers shall be evaluated to determine their appropriateness before they are placed in any media center. The evaluation shall use the same criteria as for all other materials considered for inclusion in the media centers. Any items determined to be unacceptable shall be returned to the donor or disposed of at the discretion of the media specialist. The media centers shall have a list of desired items to give to prospective donors to aid them in their selection of materials to donate.

Challenges:

The parent of a student affected by a media selection, or a District employee of the district may formally challenge the appropriateness of a media center selection by following the procedure outlined in this policy. The challenged material shall remain available throughout the challenge process.

Before any formal challenge can be filed, the individual contesting (hereinafter complainant) the appropriateness of the specified item shall request a conference through the principal's office with a licensed media center employee. The complainant shall be given a copy of this policy and the *Request for Formal Reconsideration Form* prior to the conference. The meeting shall take place at the earliest possible time of mutual convenience, but in no case later than five (5) working days from the date of the request unless it is by the choice of the complainant.

In the meeting, the media specialist shall explain the selection criteria and how the challenged material fits the criteria. The complainant shall explain his/her reasons for objecting to the selected material. If, at the completion of the meeting, the complainant wishes to make a formal challenge to the selected material, he/she may do so by completing the *Request for Formal Reconsideration Form* and submitting it to the principal's office.

To review the contested media, the principal shall select a committee of five (5) or seven (7) licensed personnel consisting of the principal as chair and at least one media specialist. The remaining committee members shall be personnel with curriculum knowledge appropriate for the material being contested and representative of diverse viewpoints. The task of the committee shall be to determine if the challenged material meets the criteria of selection. No material shall be withdrawn solely for the viewpoints expressed within it and shall be reviewed in its entirety and not selected portions taken out of context.

The principal shall convene a meeting after a reasonable time for the committee members to adequately review the contested material and the *Request for Formal Reconsideration Form* submitted by the complainant. The complainant shall be allowed to present the complaint to the committee after which time the committee shall meet privately to discuss the material. The committee shall vote by secret ballot to determine whether the contested material shall be removed from the media center's collection. A member from the voting majority shall write a summary of the reasons for their decision. A notice of the committee's decision and the summary shall be given (by hand or certified mail) to the complainant.

If the decision is to not remove the material, the complainant may appeal the committee's decision to the district Board of Directors by filing a written appeal to the Superintendent within 5 working days of the committee's decision or of written receipt of the decision. The Superintendent shall present the original complaint and the committee's decision along with the summary of its reasons for its position plus a recommendation of the administration, if so desired, to the Board within 15 days of the committee's decision. The Board shall review the material submitted to them by the Superintendent and make a decision within thirty (30) days of receipt of the information. The Board's decision is final.

5.8—USE OF COPYRIGHTED MATERIALS

The Board of Education encourages the enrichment of the instructional program through the proper use of supplementary materials. To help ensure the appropriate use of copyrighted materials, the Superintendent, or his designee, will provide district personnel with information regarding the “fair use” doctrine of the U.S. Copyright Code as detailed in the “Agreement on Guidelines for Classroom Copying in Not-for-Profit Educational Institutions with Respect to Books and Periodicals” and “Guidelines for Educational Uses of Music.”

The District will not be responsible for any employee violations of the use of copyrighted materials.

5.9—COMPUTER SOFTWARE COPYRIGHT

The District shall observe copyright laws governing computer software reproduction. Unless specifically allowed by the software purchase agreement, the Copyright Act allows the purchaser of software to:

1. Make one copy of software for archival purposes in case the original is destroyed or damaged through mechanical failure of a computer. However, if the original is sold or given away, the archival copy must be destroyed;
2. Make necessary adaptations to use the program; and/or
3. Add features to the program for specific applications. These improvements may not be sold or given away without the copyright owner's permission.

5.10—RELIGION IN THE SCHOOLS

The First Amendment of the Constitution states that “Congress shall make no law respecting the establishment of religion, or prohibiting the free exercise thereof. . . .” As the Supreme Court has stated (*Abington School District v. Schempp*, 374 U.S. 203) the Amendment thus, “embraces two concepts—freedom to believe and freedom to act. The first is absolute but, in the nature of things, the second cannot be.” Therefore, it is the Board’s policy that the school system, as an agency of the government, shall be neutral in matters regarding religion and will not engage in any activity that either advocates or disparages religion. The District shall assume no role or responsibility for the religious training of any student.

The need for neutrality does not diminish our school system’s educational responsibility to address the historical role of religion in the development of our culture. Since we live in a diverse society, the District’s goal shall be to address the subject of religion objectively in such a way that it promotes an understanding of, and tolerance for, each other’s religious or non-religious views.

Discussions concerning religious concepts, practices, or disciplines are permissible when presented in a secular context in their relation to an inclusive study of religion or to the study of a particular region or country. The discussions shall be such that they are objective and academically informational and do not advocate nor denigrate any particular form of religious practice.

Instructional activities in the schools that are contrary to a pupil’s religious beliefs or teachings shall be optional when accommodations can be made. Accommodation will be considered for those portions of instructional activities in the schools that unduly burden a student’s sincere religious belief provided such accommodation doesn’t amount to a significant change in curriculum, program, or course of instruction and when it is possible that a substitution of equally rigorous material that advances the same instructional goals can be arranged. Parents and students are advised that such accommodations are easier to grant when the objection is to non-state mandated Framework material than if the material is required by the Frameworks

The teacher in charge of each classroom may, at the opening of school each day, conduct a brief period of silence with the participation of all students in the classroom who desire to participate.

Students and employees may engage in personal religious practices, such as prayer, at any time, and shall do so in a manner and at a time so that the educational process is not disrupted.

5.11—DIGITAL LEARNING COURSES

Definitions

For the purposes of this policy

“Blended Learning” is education in which instruction and content are delivered through supervised instruction in a classroom and online delivery of instruction with some element of student control over time, place, path, or pace.

“Digital Learning” means a digital technology or internet-based educational delivery model that does not rely exclusively on compressed interactive video (CIV). Digital learning includes online and blended learning.

"Instructional Materials" means:

1. Traditional books, textbooks, and trade books in printed and bound form;
2. Activity-oriented programs that may include:
 - a. Manipulatives;
 - b. Hand-held calculators;
 - c. Other hands-on materials; and
3. Technology-based materials that require the use of electronic equipment in order to be used in the learning process.

“Online Learning” is education in which instruction and content are delivered primarily over the Internet. The term does not include print-based correspondence education, broadcast television or radio, videocassettes, compact disks and stand-alone educational software programs that do not have a significant Internet-based instructional component.

“Public School Student Accessing Courses at a Distance” means a student who is scheduled for a full course load through the District and attends all classes virtually.

Digital Course Offerings

The District shall offer one or more digital learning course(s) through one or more District approved provider(s) as either a primary or supplementary method of instruction. The courses may be in a blended learning, online-based, or other technology-based format and shall be tailored to meet the needs of each student.

The District may provide their own digital learning courses.

All digitally offered courses shall meet or exceed the State Board of Education's curriculum standards and requirements and be capable of being assessed and measured through standardized or local assessments. Additionally, the District shall ensure there is sufficient infrastructure to handle and facilitate a quality digital learning environment.

As an approved digital learning provider, the District shall annually determine what District created digital learning courses it will provide to our students. The District may also choose to provide digital learning courses by contracting with outside providers of such courses, who have been pre-approved by the Arkansas Department of Education (ADE). The School Board shall determine the provider method or combination of methods for the District. The Superintendent shall ensure that all digital learning courses provided to District students, regardless of the source of the course, have been approved by ADE.

District created digital courses and any digital courses the district purchases from outside providers shall adhere to the guidelines for the use of digitally transmitted copyrighted materials set forth in Policy 5.8-USE OF COPYRIGHTED MATERIALS as well as applicable statutory requirements.

The District shall require all outside providers to incorporate Policy 5.8 as a condition of the service contract. Failure of the outside provider to abide by Policy 5.8 shall constitute a breach of contract and the outside provider shall be responsible for any costs resulting from such breach.

The high school principal shall determine how many digital learning courses may be taken by each student.

The District is responsible for providing all instructional materials for each student who enrolls in a District approved digital learning course.

Regardless of any other provisions of this policy, the District may restrict a student's access to digital courses when the student's building principal determines the student's participation in such a course would not be academically appropriate based on the student's past performance in digital courses. Furthermore, the student's building principal may revoke a student's eligibility to continue taking a digital learning course if the student's performance during the semester indicates the student is not succeeding in the course.

5.14—HOMEWORK

Homework is considered to be part of the educational program of the District. Assignments shall be an extension of the teaching/learning experience that promotes the student's educational development. As an extension of the classroom, homework must be planned and organized and should be viewed by the students as purposeful.

Teachers should be aware of the potential problem students may have completing assignments from multiple teachers and vary the amount of homework they give from day to day.

Parents shall be notified of this policy at the beginning of each school year.

5.15—GRADING

Parents or guardians shall be kept informed concerning the progress of their student. Parent-teacher conferences are encouraged and may be requested by parents, guardians, or teachers. If the progress of a student is unsatisfactory in a subject, the teacher shall attempt to schedule a parent-teacher conference. In the conference, the teacher shall explain the reasons for difficulties and shall develop, cooperatively with the parents, a plan for remediation which may enhance the probability of the student succeeding. The school shall also send timely progress reports and issue grades for each nine-week grading period* to keep parents/guardians informed of their student's progress.

The evaluation of each student's performance on a regular basis serves to give the parents/guardians, students, and the school necessary information to help effect academic improvement. Students' grades shall reflect only the extent to which a student has achieved the expressed educational objectives of the course.

The grades of a child in foster care shall not be lowered due to an absence from school due to:

- (1) A change in the child's school enrollment;
- (2) The child's attendance at a dependency-neglect court proceeding; or
- (3) The child's attendance at court-ordered counseling or treatment.

The grading scale for all schools in the district shall be as follows.

Section 1. (a) Beginning with the 1993-94 school year, only a student who has successfully completed a minimum core of high school courses recommended for a preparation for post-secondary education or a more rigorous program of vocational study shall be eligible for distinction as an honor graduate of a senior class in a high school in this state. (b) Beginning with the 1993-94 school year, only a student who has successfully completed the minimum core of high school courses recommended for preparation for post-secondary education or a more rigorous program of vocational study with a minimum grade point established by the school district or its equivalent shall be eligible for distinction as an honor graduate of a senior class in a high school in this state.

To be eligible for Valedictorian and Salutatorian honors a student must complete the Arkansas Smart Core Curriculum and the honor graduate requirements. The following procedures will be used to determine final selection of Valedictorian and Salutatorian:

1. Class rank will be used to determine Valedictorian and Salutatorian.
2. In case of a tie for either of the top two honors, the numerical grade for each semester of all courses taken in grades nine (9) through twelve (12), will be averaged. These averages will be used to determine Valedictorian and Salutatorian.
3. If ties exist after the first two steps, there will be a Co-Valedictorian and/or Co-Salutatorian.

Additionally, for a student to be eligible for the academic honor of Valedictorian or Salutatorian, that student must attend their senior year at Salem High School. 5.18—HEALTH SERVICES

The Board believes that healthy children promote a better learning environment, are more capable of high student achievement, and will result in healthier, more productive adults. Therefore, the goal of the District's health services is to promote a healthy student body. This requires both the education of students concerning healthy behaviors, as well as providing health care services to pupils.

While the school nurse is under the supervision of the school principal, the delegation of health care duties shall be in accordance with the Arkansas Nurse Practice Act and the Arkansas State Board of Nursing Rules and Regulations Chapter Five: Delegation of Nursing Care.

Date Adopted: June 16, 2008

Last Revised: June 16, 2008

5.19—EXTRACURRICULAR ACTIVITIES – SECONDARY SCHOOLS

The Board believes in providing opportunities for students to participate in extracurricular activities that can help enrich the student's educational experience. At the same time, the Board believes that a student's participation in extracurricular activities cannot come at the expense of his/her classroom academic achievement. Interruptions of instructional time in the classroom are to be minimal. Additionally, a student's participation in, and the District's operation of, extracurricular activities shall be subject to the following policy. All students meeting this policy's criteria are eligible for extracurricular activities.

Definitions:

Extracurricular activities are defined as: any school sponsored program where students from one or more schools meet, work, perform, practice under supervision outside of regular class time, or are competing for the purpose of receiving an award, rating, recognition, or criticism, or qualification for additional competition. Examples include, but are not limited to, interscholastic athletics, cheerleading, band, choral, math, or science competitions, and club activities.

Academic Courses are those courses for which class time is scheduled, which can be credited to meet the minimum requirements for graduation, which is taught by a teacher required to have State certification in the course, and has a course content guide which has been approved by the Arkansas Department of Education. Any of the courses for which concurrent high school credit is earned may be from an institution of higher education recognized by the Arkansas Department of Education. If a student passes an academic course offered on a block schedule, the course can be counted twice toward meeting the requirement for students to pass four (4) academic courses per semester as required by this policy.

Supplemental Improvement Program is an additional instructional opportunity for identified students outside of their regular classroom and meets the criteria outlined in the current Arkansas Activities Association Handbook.

ACADEMIC REQUIREMENTS: Junior High

A student promoted from the sixth to the seventh grade automatically meets scholarship requirements. A student promoted from the seventh to the eighth grade automatically meets scholarship requirements for the first semester. In order to remain eligible for competitive interscholastic activity, a student must have passed (4) academic courses the previous semester and either:

- 1) Have earned a minimum Grade Point Average of 2.0 from all academic courses the previous semester; or
- 2) If the student has passed four (4) academic courses the previous semester but does not have a 2.0 GPA the student must be enrolled and successfully participating in a supplemental instruction program to maintain their competitive interscholastic extracurricular eligibility.

STUDENTS WITH AN INDIVIDUAL EDUCATION PROGRAM

In order to be considered eligible to participate in competitive interscholastic activities, students with disabilities must pass at least four (4) courses per semester as required by their individual education program (IEP).

ARKANSAS ACTIVITIES ASSOCIATION

In addition to the foregoing rules, the district shall abide by the rules and regulations of the Arkansas Activities Association (AAA) governing interscholastic activities.

** State Board of Education Standards for Accreditation 10.05 require a policy that "shall limit and control interruptions of instructional time in the classroom and the number of absences for such activities." You could replace "one per week per extracurricular activity" with a specific number of days per semester that could also allow the student to "bank" or accumulate days in anticipation of a major event.*

NOTE: *The standards as outlined above are minimum standards and can be raised locally if desired. If your district does not offer a Supplemental Instruction Program (SIP), delete the references to it in your policy.*

The State Board has given the Arkansas Activities Association the responsibility and authority to administer the SIP. Their standards allow a student to participate in an SIP for a maximum of two consecutive semesters and require the student to improve his/her GPA by at least 10% by the end of the first semester to remain eligible for the second semester. By the end of the second semester, the student must have attained a 2.0 GPA to be eligible for competitive interscholastic activities. Following one or more semesters where the student has attained a 2.0 GPA, this cycle may be repeated.

5.19.1—EXTRACURRICULAR ACTIVITIES - ELEMENTARY

The Board believes in providing opportunities for students to participate in extracurricular activities that can help enrich the student's educational experience. At the same time, the Board believes that a student's participation in extracurricular activities cannot come at the expense of his/her classroom academic achievement. Interruptions of instructional time in the classroom and absences from class are to be minimal. All students are eligible for extracurricular activities unless specifically denied eligibility on the basis of criteria outlined in this policy.

A student may lose his/her eligibility to participate in extracurricular activities when, in the opinion of the school's administration, the student's participation in such an activity may adversely jeopardize his/her academic achievement. Students may also be denied permission to participate in extracurricular activities as a consequence of disciplinary action taken by the administration for inappropriate behavior.³

5.29—WELLNESS POLICY

The health and physical well-being of our students directly affects their ability to learn. Childhood obesity increases the incidence of adult diseases occurring in children and adolescents such as heart disease, high blood pressure and diabetes. The increased risk carries forward into their adulthood. Research indicates that a healthy diet and regular physical activity can help prevent obesity and the diseases resulting from it. It is understood that the eating habits and exercise patterns of students cannot be magically changed overnight, but at the same time, the board of directors believes it is necessary to strive to create a culture in our schools that consistently promotes good nutrition and physical activity.

The problem of obesity and inactivity is a public health issue. The Board of Directors is keenly aware that it has taken years for this problem to reach its present level and will similarly take years to correct. The responsibility for addressing the problem lies not only with the schools and the Arkansas Department of Education, but with the community and its residents, organizations and agencies. Therefore, the District shall enlist the support of the larger community to find solutions which improve the health and physical activity of our students.

Goals

In its efforts to improve the school nutrition environment, promote student health, and reduce childhood obesity, the District will adhere to the Arkansas Rules Governing Nutrition and Physical Activity Standards in Arkansas Public Schools. To promote nutrition, physical activity, and other school based activities that will improve student wellness, the District has established the following goals.

1. Appoint a district school health coordinator (designated district official) who shall be responsible for ensuring that each school fulfills the requirements of this policy;
2. Implement a grade appropriate nutrition education program that will develop an awareness of and appreciation for nutrition and physical activity throughout the curriculum;
3. Enforce existing physical education requirements and engage students in healthy levels of vigorous physical activity;
4. Strive to improve the quality of physical education curricula and increase the training of physical education teachers;
5. Follow the Arkansas Physical Education and Health Education Frameworks in grades K-12;
6. Not use food or beverages as rewards for academic, classroom, or sports performances;
7. Ensure that drinking water is available without charge to all students;
8. Establish class schedules, and bus routes that don't directly or indirectly restrict meal access;
9. Provide students with ample time to eat their meals in pleasant cafeteria and dining areas;
10. Establish no more than nine (9) school wide events which permit exceptions to the food and beverage limitations established by Rule. The schedule of the events shall be by school, approved by the principal, and shall be part of the annual school calendar;
11. Abide by the current allowable food and beverage portion standards;
12. Meet or exceed the more stringent of Arkansas' or the U.S. Department of Agriculture's Nutrition Standards for reimbursable meals and a la' carte foods served in the cafeteria;
13. Restrict access to vended foods, competitive foods, and foods of minimal nutritional value (FMNV) as required by law and Rule;
14. Conform new and/or renewed vending contracts to the content restrictions contained in the Rules and reduce district dependence on profits from the sale of FMNV.
15. Provide professional development to all district staff on the topics of nutrition and/or physical activity;

16. Utilize the School Health Index available from the Center for Disease Control (CDC) to assess how well the district is doing at implementing this wellness policy and at promoting a healthy environment for its students;

Advisory Committee

To enhance the district's efforts to improve the health of our students, a School Nutrition and Physical Activity Advisory Committee (SNPAAC) shall be formed. It shall be structured in a way that ensures age-appropriate recommendations are made which correlate to our district's grade configurations. The SNPAAC shall have the powers and responsibilities delegated to it by statute and Rule and are incorporated into this policy by reference. The overarching goal of the committee shall be to promote student wellness by monitoring how well the district is doing at implementing this policy. The SNPAAC shall use modules 1, 2, 3, 4, and 8 of the CDC's School Health Index as a basis for assessing each school's progress toward meeting the requirements of this policy. The results of the annual assessment shall be included in each school's ACSIP, provided to each school's principal, and reported to the board. Goals and objectives for nutrition and physical activity shall also be included in the ACSIP.

Parents, students, the District's teachers of physical education, school health professionals, the District School Board of Directors, the District's school administrators, members of the community, and representatives of the District's school food authority shall be included in the development, implementation, and periodic review of the District's wellness policy to the extent interested persons from each group desire to be included.

The SNPAAC shall provide recommendations to the school district concerning menus and other foods sold in the school cafeteria. Such recommendations shall be based, at least in part, on the information the Committee receives from the District on the requirements and standards of the National School Lunch Program and information and from menus for the National School Lunch Program and other food sold in the school cafeteria on a quarterly basis.

The District shall periodically assess, with input from the SNPACC, the District and individual schools' status regarding implementing this policy. The assessment shall be based, at least in part, on:

- the extent to which District schools are in compliance with this policy;
- the extent to which this policy compares to other model local school wellness policies; and
- a description of the progress made in attaining the goals of this policy.

The assessment results along with the content of the policy shall be periodically reported to the public, including parents, students, and other members of the community.

The statutory powers are codified at A.C.A. § 20-17-135(e)(1) and repeated in the Rules starting at 6.01. The powers delegated solely through the Rules can be found starting at 6.06
